New From Blue Feather Products

GRABBIT® Sewing
Tools

Make threading needles easy! The small threader has very fine wire to use for needles with little eyes and the large standard threader comes with a built in knife slot to quickly cut your thread. The strong wire and simple handles are extremely durable. Both come with a tiny powerful hidden magnet to anchor them to a metal surface or to hold them onto your Grabbit Magnetic Pincushion.

Grabbit Magnetic Needle Threaders
